DEVONTHINK PERSONAL EDITION 1.5.2 AVAILABLE

Bietigheim-Bissingen (Germany, EU), 14th of March, 2003 --

DEVONtechnologies updates its revolutionary information manager and freeform database again, to version 1.5.2.

DEVONthink Personal Edition 1.5.2 is now much more friendly to test drivers who only test the application only now and then, it permits 30 hours of usage time before showing a registration reminder, instead of simply counting the days from the time of the first launch. Additionally, the registration panel is now less confusing. Other improvements include up to 30 percent faster retrieval of similar words based on the context, better support for ».mailloc«, ».ftploc« and ».inetloc« files, many more minor interface changes and some bug fixes. DEVONthink 1.5.2 runs again stable on Mac OS X 10.1.

Without the need for indexing, DEVONthink fully or semi-automatically classifies elements, lists similar contents and words immediately using fuzzy algorithms, finds and compares text and even images, summarises texts intelligently and provides high performance concordance tools. As a Cocoa application it's perfectly integrated into Mac OS X including it's own services for storing and summarising text clippings, has advanced text editing functions including rulers and provides a Finder-like interface with contextual menus, Dock menus, different views and drag-and-drop. Finally, DEVONthink is the first product based on the powerful and language independent DEVONtechnology which is suitable for a wide range of applications.

DEVONthink Personal Edition 1.5.2 runs on Mac OS X 10.1 or higher and is immediately available as a free download from www.devon-technologies.com. It must be registered for US\$ 44,95 after the evaluation period.

NEW USER FORUM ONLINE

Bietigheim-Bissingen (Germany, EU), 14th of March, 2003 --
DEVONtechnologies opens user forum on its web site.

To serve its customers better, DEVONtechnologies has launched a brand new user forum (bulletin board system, BBS) on its web site, www.devon-technologies.com, as a place to meet other DEVONtechnology users, ask questions, discuss the core technology and comment the latest releases. DEVONtechnologies' support staff will also be online to help with problems and to answer the most difficult questions.
