## TIGER UPDATES FOR EASYFIND, WORDSERVICE AND XMENU

Coeur d'Alene (Idaho, USA), 2nd of June, 2005 -- DEVONtechnologies LLC releases more Tiger updates for its freeware file find application EasyFind, the Mac OS X service WordService and the menu bar launcher XMenu.

EasyFind 3.5 bypasses annoying bugs in Mac OS X with its own wildcard interpreter that also supports UNIX wildcards specifying or excluding a range or choice of characters (“[...]”) and displays full path names for found items in tool tips. XMenu 1.6 is again able to insert its menus to the right of menu extras on Mac OS X Tiger, and WordService 2.6.1 circumvents a bug that keeps most services from working correctly in Mail 2.0.

EasyFind 3.5, WordService 2.6.1 and XMenu 1.6 run on Mac OS X 10.3 or later, are immediately available for downloading from [www.devon-technologies.com](http://www.devon-technologies.com) and are free for non-commercial use.
