FOR IMMEDIATE RELEASE

DEVONTHINK 2.0 GRACE PERIOD AND A SUMMER DEAL

Coeur d'Alene (Idaho, USA), June 30, 2008 – DEVONtechnologies, LLC opens the grace period for free upgrades to DEVONthink 2.0 and offers all editions of [DEVONthink](#) as well as [DEVONnote](#) for 25 percent off exclusively for two days.

Starting as of July 1st, 2008, everyone who buys licenses for DEVONthink Personal, Pro, Pro Office, or DEVONnote will be eligible for free upgrades to version 2.0 when it is released later this year. A regularly updated thread on the progress on version 2.0 can be found in the DEVONtechnologies [user forum](#).

For all other users who have purchased DEVONthink or DEVONnote before the grace period, we will have very reasonable upgrade prices.

“With the opening of the grace period we now welcome all new users with a free ticket for the upcoming version 2.0,” says Eric Böhnisch-Volkmann, President of DEVONtechnologies. He continues: “And for everyone who has been reluctant to jump on the DEVONthink bandwagon with version 2.0 on the horizon, we will add another incentive: On July 1st and 2nd we will give 25 percent on all editions of DEVONthink as well as DEVONnote — watch out for the promotion link on our home page and in my blog!”

AVAILABILITY AND PRICING

All editions of DEVONthink require Mac OS X 10.4 or later and can be downloaded from www.devon-technologies.com. They can be test-driven for free for 150 hours of non-continuous runtime until they need to be properly licensed.

BACKGROUND: DEVONTHINK

In today's world, everything is digital. From shopping receipts to important research papers, peoples' lives often fill their hard drives with emails, PDFs, Word documents, multimedia files and more. Questions eventually pop up, like where to store all of this stuff? How to organize these very different file types, and even better, how to find the exact file one is looking for the second one needs it? It's almost as if one needs a second brain just to keep one's digital life straight.

Enter DEVONthink: The solution to this digital age conundrum. It is a second brain, the one and only database for all digital files, be they PDFs, emails, Word documents or even multimedia files. Boasting a refined artificial intelligence, DEVONthink is exceedingly flexible and adapts to the user's personal needs. And if the files are not digital yet, paper capture support is already built-in (DEVONthink Pro Office only.)

Users can use it as their document repository, their filing cabinet, their email archive, or their project organizer; DEVONthink can do it all. One can even collect and organize data from the web, enrich it with sound and movie files, and then export the finished product as a website or to an Apple Pages document to print. Or one can copy the content to an iPod! The possibilities are only as limited as the user's imagination.

THE DATABASE FOR THE INTERNET AGE

Because DEVONthink keeps all important data in one database, it doesn't matter where the data is physically located. DEVONthink uniquely integrates both local documents and live content from the Internet to keep all information related to a project together in one place. No more folders full of loosely organized files and overflowing bookmark bars in Safari; with DEVONthink, the user seamlessly mixes local documents, clippings, and live web pages in one dynamic database.

THE DIGITAL WORKPLACE

DEVONthink is not only a simple database, it's a flexible work environment, too, with powerful management features suited to any professional project. It provides the user with all the tools she or he needs to effectively work with documents. The integrated RTF editor makes it easy to write new documents, or the users can open documents in a third-party application.

INTELLIGENT ASSISTANT

DEVONthink is based on a powerful artificial intelligence (AI) architecture that helps organize and navigate information collections quickly and accurately. It assists its users with both filing documents and with finding similar items, and can help make connections that they might have missed on their own. It can even master huge data collections with a few simple clicks, saving time and aggravation.

SHARE THE KNOWLEDGE

Finally, DEVONthink Pro Office allows to share the accumulated and organized knowledge. Users can post it to their websites, or they can let their coworkers access databases with a familiar search-engine like interface using standard web browsers. Depending on the network setup, it's even possible to search shared databases over the Internet. A JavaScript applet gives convenient access to the database also from the Apple iPhone.

CORPORATE BACKGROUND

DEVONtechnologies LLC, founded in 2002, incorporated in 2004 and headquartered in Coeur d'Alene, Idaho, USA, researches in the field of semantic and associative data analysis and synthesis, and develops key applications based on the DEVONtechnology. Named after the Devonian Period, the DEVONtechnology marks the departure into a new age of data processing. The main focus of all activities is clearly on using the robust, flexible and versatile architecture intelligently to create rock-solid applications for a variety of purposes, including but not limited to databases, intelligent agents, data-mining, information retrieval and human-computer-interfaces.
